

24. For case 5, since the content and files have already been translated once, the MOX already has the specific language Content and files and thus MOX shall not convert again rather use the same Content and files for the verification & changes. The Rajbhasha / Regional offices shall make the corrections as per the comments / files received from PwC maker. English Content & file shall also be required to be sent to MOX for reference.
25. Once DOC, in the MOX, approves the multilingual files and content with comment (comment shall include the scheduling details of the content and / or files), content and files shall go to the PwC maker in the DXP.
